NAAC Accredited A+ Grade
(An Empowered Autonomous Institute Affiliated to Savitribai Phule Pune University)

CIVIC INTELLIGENCE PLATFORM

AI-POWERED SMART COMPLAINT MANAGEMENT AND CIVIC ISSUE DETECTION SYSTEM

TEAM MEMBERS
Rushikesh Joshi (L63) • Vishwajeet Padole (L54) • Tanmay Pagare (L40)

GUIDE
Mrs. Bhagyashri Wankar

DEPARTMENT
Computer Science & Engineering

ACADEMIC YEAR
2026 - 27

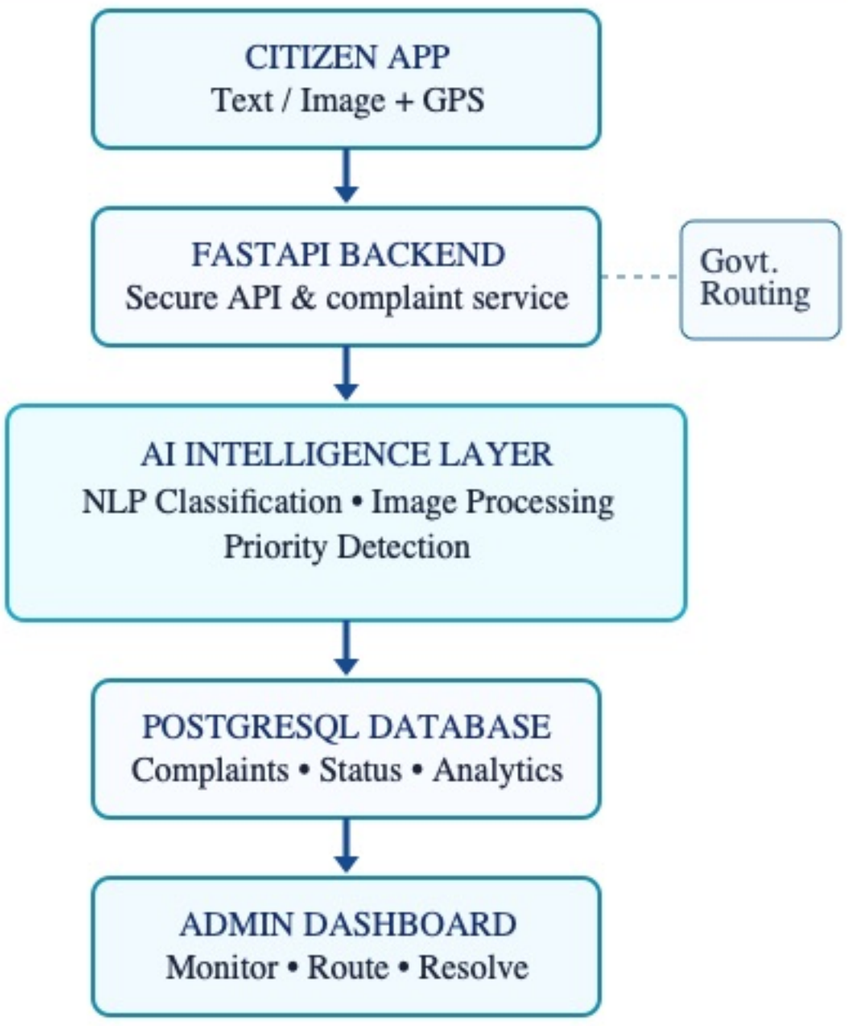

1. PROBLEM STATEMENT

Potholes, garbage, leakage andinfrastructur

2. INNOVATION

- Automatic complaint classification
- AI-based priority detection
- Location-aware reporting
- Multilingual support

3. SYSTEM ARCHITECTURE

4. COMPLAINT LIFECYCLE

1. Citizen Complaint Submission — Report via text, image and GPS
2. AI Processing — Understand issue details
3. Complaint Classification — Predict civic category
4. Priority Detection — Identify urgency level
5. Department Routing — Send to responsible authority
6. Issue Resolution — Status updates to citizen

5. AI MODULE

- NLP complaint understanding
- Multilingual support

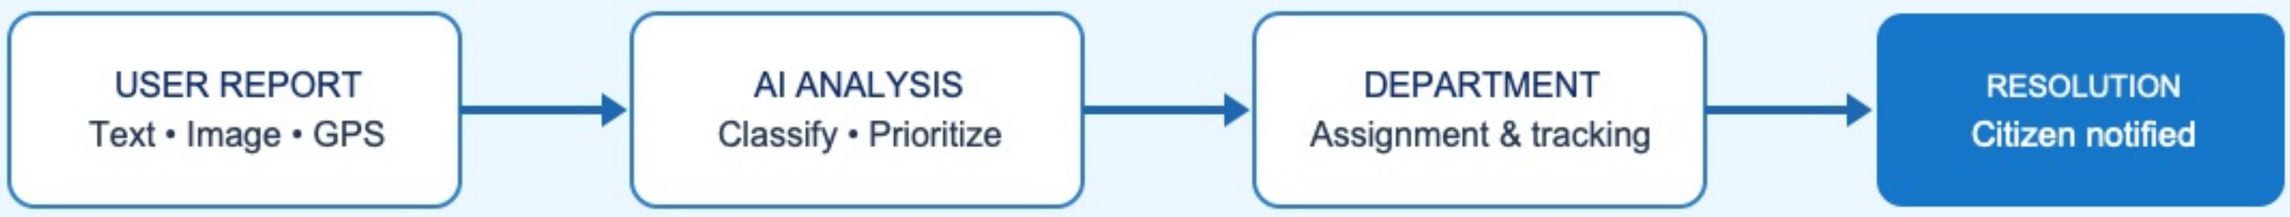

6. TECHNOLOGY STACK

Frontend	Web UI
Backend	FastAPI
Database	PostgreSQL
AI	NLP Transformers
Containerization	Docker
Migration	Alembic

7. FUTURE SCOPE

- Computer vision detection
- Mobile application
- Smart c

8. SMART CIVIC WORKFLOW

Smarter Reporting. Faster Resolution. Better Cities.
